

Curved Piecing Made Easy!

No PINS! No pressing seams open!
No problem!

Take the fear out of machine piecing curves!
This class will show you how to tackle even the tightest curves and we will do it without pinning! And to speed up the process we will press all our seams in one direction so our seams will "kiss" and fit perfectly together... no time consuming pressing seams open. I have a need for speed and this is the fastest method you will find that will achieve great results everytime!

You will learn how to piece various curved blocks, including: Drunkard's Path, Flowering Snowball, Glorified Nine Patch and the Apple Core.
By the time the class is over you will no longer fear the curve but embrace it!

Kit Cost: \$25.00

Kit includes pre-cut pieces for all blocks plus printed sewing directions for each of the blocks.

Supplies for class: Standard sewing supplies (scissors, white cotton thread (50wt), machine needle (80/10), & a seam ripper. Straight pins are not required but you can bring them if you feel a need :)
