

Triangle Tote

The most versatile tote bag you will ever make!

Have you always wanted to find a bag pattern this is easy to make while also being practical and looking stylish?

My triangle tote is that bag!

This is one of the easiest and most cleverly constructed bags you will ever make! Class will teach you how to create any size bag you want using this simple pattern and sewing method. Looks like a normal tote bag but add a few very cleverly placed seams and you have a unique "Triangle" bag that folds for packing and expands to almost twice the size. Great for shopping! Looks difficult but it is very easy to make! Once you learn this method you will want to make bags for all your friends! Directions are scalable so you can make different sizes.

Kit Cost: \$10.00

Includes pattern with detailed directions

SUPPLIES NEEDED:

- ◆ 1-1/2 yards, any color Waterproof Canvas, Ottertext brand or similar. (I used this material for the stiffness and the waterproof qualities. It easily washes out with a damp sponge. The stiffness also lends itself to the design as it makes really crisp diagonal seams). NOTE: You can substitute regular canvas but make sure it has a "stiff" hand as you need that to maintain the bags shape.
- ◆ Sewing supplies: plastic clips (no pins!), scissors, 12" or longer ruler, marking pencil, thread, heavy duty needle.
